Why?

Amsterdam has the highest concentration of life sciences research in the Netherlands, with a strong biomedical focus. The city is home to two universities with academic hospitals, and numerous specialized research institutes. Together, they provide industry with easy access to many innovative technologies, huge clinical trial capabilities, patient cohorts, biobanks and many centres of expertise.

More than 70 dedicated Life Sciences companies have already chosen to set up office in the Amsterdam Metropolitan Area, including multiple university spin offs.

Cluster basics

- Talent
- Knowledge
- Infrastructure
- Companies
- Money

Financial, business and supply services abound, a mature life sciences business chain exists.

Both a knowledge and a business centre, Amsterdam has a strong international orientation and is well connected, physically and digitally, to markets and customers worldwide.

The Amsterdam BioMed Cluster was created to gain further economical spin off from the bio- and medical technology in the region.

Cluster excellence

- Oncology
- Neurosciences
- Autoimmunity
- Infectious diseases
- Cardiovascular diseases
- Facilities & tools

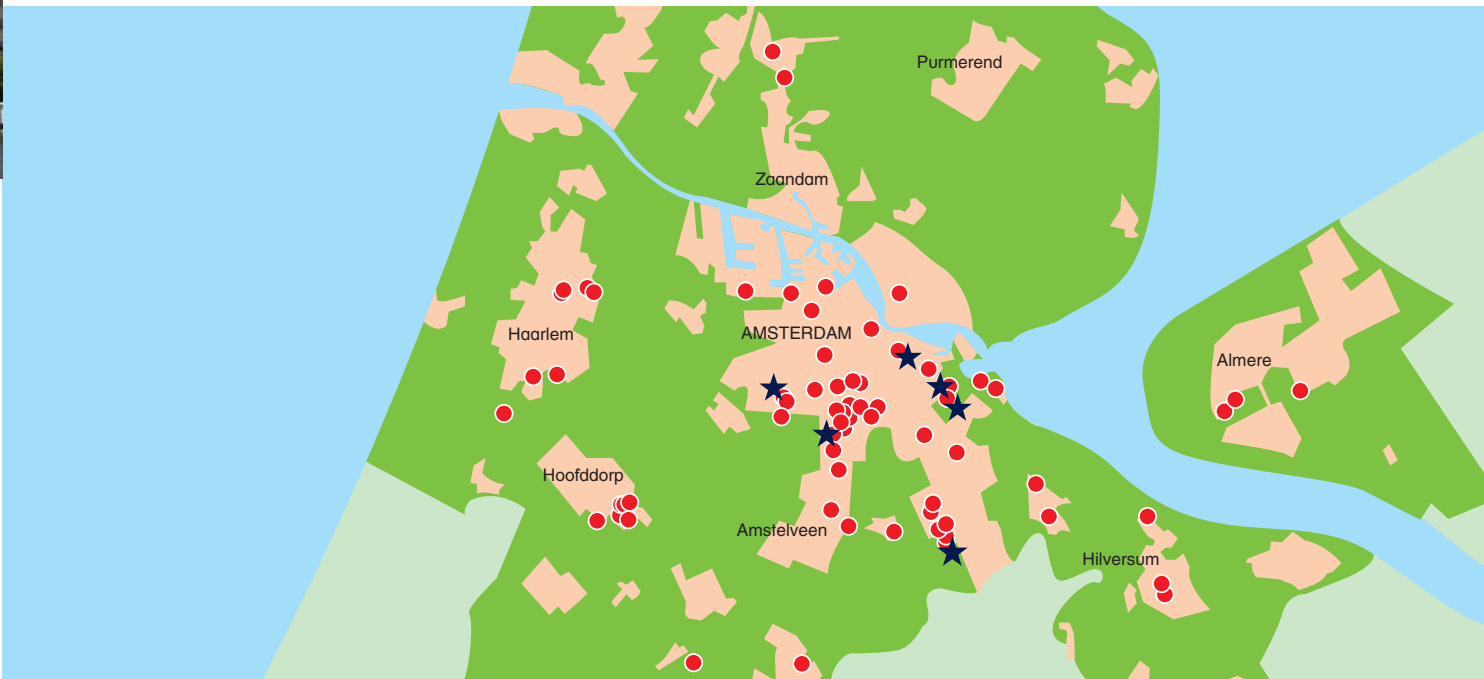

How?

The Amsterdam BioMed Cluster is the unifying force in the region's life sciences.

It stimulates entrepreneurship by exploiting synergy between knowledge institutions, businesses and government, and opens up the regional knowledge- and technology base to national and international partners interested in doing business.

The Amsterdam BioMed Cluster:

- **connects** industry and innovation, by bringing together commercial, public sector and academic partners
- **supports** and **represents** the life sciences industry in the Amsterdam Metropolitan Area
- **promotes** the Amsterdam region nationally and internationally as preferred destination for life sciences activities

Cluster facts

- Area: 1502 km²
- Population: 2.138.281
- LS companies: 70
- LS support companies: > 100
- Institutions of higher learning: 12

Amsterdam Metropolitan Area

- 1 or more life sciences (supporting) companies
- ★ 1 or more institutions of higher learning

What?

The Amsterdam BioMed Cluster stimulates the life sciences industry in the Amsterdam Metropolitan Area in a number of ways:

- Information, services and activities are clustered within a single physical and digital location, www.amsterdamiomed.nl
- The online **Know-who Know-how directory** provides business and career seekers with full company profiles of life sciences organizations with links and contact information
- Regular **life sciences cafés** stimulate the exchange of ideas for true innovation, collaboration and entrepreneurship
- Cluster partners benefit from access to **international partner search requests** and **supply & demand requests** to accelerate their business
- **I amstarter** and the **Life Sciences Fund Amsterdam** offer professional support and funding options for high tech starters
- The Cluster **promotes its partners internationally** and participates in **events**, such as the BIO International Convention and BioEquity Europe, relevant to the sector's growth
- The **Life Sciences Centre Amsterdam** assists in commercialising technology transfer opportunities stemming from the region's research institutes and businesses
- Together with neighboring bio-clusters we work towards a **one-stop shop for the Dutch life sciences**
- Commercial, public sector and academic organizations are invited to register as a **partner in the Amsterdam Biomed Cluster**. Participation is FREE
