Amsterdam BioMed News

Sign up now for our next Life Sciences Café!

You are cordially invited to our next Amsterdam Biomed Cluster Life Sciences Café on Thursday March 12 2009. Please note our new location: Café Restaurant Polder at Science Park 205 in Amsterdam. Participation is free after signing up via the [registration form](#). You are welcome from 15:30, so we can start at 16 o'clock sharp.

Preliminary program:

- Update regional news;
- Rob Janssen, AMT;

- René van Melick, O2view;
- Arjan de Leeuw van Weenen, Yacht;
- Network drinks.

Join us in Atlanta at the BIO Convention 2009

The Bio International Convention 2009, the world's largest gathering of the biotechnology industry, will be held May 18-21 in Atlanta. The Dutch biodelta will again be represented by a Holland pavilion. Cluster partners are invited to join. The Holland pavilion, which is supported by the Dutch government, offers especially smaller companies an excellent opportunity to present themselves and find business partners. [Continue>>](#)

Inventor Dinner 2009: putting the scientist in the spotlight

The Inventor Dinner is an annual event to draw attention to innovative companies with knowledge intensive R&D activities in the Amsterdam Metropolitan Area. Based on the factors innovation, quality, commercial value and entrepreneurship, an expert jury will select the winning inventor. The Inventor Dinner is supported by the Amsterdam Innovation Motor, Amsterdam Topstad, and Avantium. Microbiome Ltd, a spin-off company from VUmc, won the Award in 2008. [Continue>>](#)

International Talent Program for Life Sciences & Health

Initiated in 2008 by the Amsterdam BioMed Cluster in collaboration with Hyphen Projects, the successful "International Talent meets Dutch Life Sciences" programme will be held again in 2009. As countries, states and bio-regions compete for life sciences talent, this programme is designed to show foreign life sciences talent what the Netherlands has on offer in terms of life sciences career opportunities. Know-who Know-how

Our Know-who Know-how [Directory](#) of Life Sciences organisations should serve as a useful source in fostering the establishment of new contacts and collaborations in the industry.

Over 450 relations attended the annual event of the Amsterdam Innovation Motor (AIM) held February 12 in the Westergasfabriek, Amsterdam. Inspiring presentations by Robbert Dijkgraaf (KNAW) en Werner Vogels (Amazon.com) were followed by demonstrations of regional innovations coming from sectors as diverse as the creative industry, life sciences, ICT, new media and sustainability. During the network drinks, life sciences related companies Cortical Studios, MicroVision Medical, Sanquin and Medical Personal Space Station entertained the audience.

Column: Team & Transform

Technological managers are governing the Life Sciences, ICT and quite some other industries. When these managers were students, they were the smartest ones of their class, excellent in science, learning foreign languages, they don't need anybody else. I know it so well, well, because I'm one of those. [Continue>>](#)
